Sandra Corral

At Rite of Passage, our heroes often wear multiple hats. During an otherwise trying year, HR Specialist Sandra Corral converted from Administration to Operations, jumping into Group Living at the Nevada Q House and working night shifts, maintaining contact with staff to create and verify schedules, offering rides to work for those without transportation, filling in when needed, and remaining on call in case of emergencies. She has even created a regional COVID reporting process, now utilized by all Western Region sites. We are genuinely thankful to have such a hero on our team.
