# Spotlight on...

## Tanya Hannah

We always know where Nurse Tanya Hannah's heart is. Not only does she continue to provide crucial ongoing care to ensure the safety of all students and staff: as an experienced, take-charge Registered Nurse, she also proactively addresses medical concerns with COVID-positive youth, demonstrates sanitary practices to all, and discusses vital policy updates directly with her Program Director. It isn't easy overseeing both DART and the Woodford Home; but Hannah's incredible resilience and skill win out, every time. Thank you, Nurse Hannah, for being our hero!
