Daisy, Jorge, Christine & Daniel

Commitment and passion are two characteristics common to all heroes—CSA Las Sendas’s Case Management Department displays both. During the recent surge of intakes, Lead Case Manager Daisy Jimenez stepped up to the challenge and joined her Case Management team, consisting of: Jorge Juarez Martinez, Christine Herrera, and Daniel Cabriaes. Together, they completed 43 intakes in only 3 days. They worked tirelessly to comply with all ORR federal guidelines and deadlines, quitting only when the work was completed. No program can stand without its pillars: together, these dedicated professionals constitute some of our strongest, and they deserve recognition and applause. We are so proud to call them part of our CSA family.
