# Spotlight on...

## Jennifer Luna

Jennifer Luna is our Administrative Assistant here at Uta Halee Academy. Though she has always been diligent and passionate about our mission, her response to the pandemic has exemplified her dedication to the youth and staff of UHA. She has been on top of her game throughout the pandemic: combing the Internet to find the PPE and cleaning supplies we needed and educating everyone regarding safety and best practices. And her skills don't end there: she screens employees daily, provides copies of cleaning logs, and personally ensures that our campus is fully outfitted with signage explaining how to best prevent the spread of COVID-19. Not once has she accepted defeat: she remains upbeat as she reminds us all to continue wearing a mask, washing our hands, and utilizing all other safety and sanitation protocols for the duration of the pandemic. Her indefatigable enthusiasm and driving spirit have helped all of us stay safer in strange and unsettling times. To our UHA Administrative Hero, we say thank you!
