

PL-200: Microsoft Power Platform Functional Consultant

Overview

Microsoft Power Platform Functional Consultant certification training course from Koenig Solutions accredited by Microsoft. This course is designed to help you automate business processes, develop your own rich app experiences, and connect with customers better and faster. You will learn how to perform discovery, capture requirements, engage subject matter experts and stakeholders, translate requirements, and configure Power Platform solutions and apps.

Through a blend of hands-on labs and interactive lectures, you will learn how to create application enhancements, custom user experiences, system integrations, data conversions, custom process automation, and custom visualizations.

In this course, we will cover Power Apps, Power Automate, Power BI, and Power Virtual Agents applications in depth, with additional focus on the Common Data Service, AI Builder, connectors, and portals.

Duration

40 HOURS

Code	Name	Duration
PL-200	Microsoft Power Platform Functional Consultant	40 Hrs
