

OARS H_S

Hydrating Surfactant
with Organic Acid
Redistribution System

GENERAL INFORMATION

OARS H_S is the combination of a patented organic acid redistribution system, OARS, and multi-branched hydrating chemistry. **OARS H_S** may help in controlling soil water repellency and helps provide uniform soil moisture and increased soil moisture retention. When used as directed, **OARS H_S** is safe to turf and can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. **OARS H_S** is easy to apply through standard spray application equipment to all turfgrass areas.

CAUTION

Not for use on Food Crops. KEEP OUT OF THE REACH OF CHILDREN. Read label before use. Wear goggles and chemical resistant gloves.

IN CASE OF CONTACT

In Eyes – Immediately wash eyes with large amounts of water for at least 15 minutes, lifting the lower and upper lids. Seek medical attention IMMEDIATELY.

On Skin – Remove contaminated clothing and immediately wash contaminated area with large amounts of water for at least 15 minutes. Seek medical attention.

If Swallowed – If person is conscious, immediately give large quantities of water. Do not induce vomiting. Do not induce vomiting or give fluids by mouth to an unconscious person. Seek medical attention immediately.

If Inhaled – Move person to fresh air and check to ensure adequate respiration. Seek medical attention immediately.

NOTE: If a pesticide is mixed with the OARS HS solution in the tank, follow the First Aid Directions on the label of the Pesticide.

Applicators and other handlers should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove protective clothing and equipment after handling. Wash the outside of gloves before removing. Wash thoroughly and change into clean clothing.

GUARANTEED MINIMUM ANALYSIS

Octahydroxy polyoxyalkylene polymers	85%
Amine salt of alkyl substituted maleic acid	7.5%

NOT A PLANT FOOD INGREDIENT

REGISTRATION NUMBER 2018070A FERTILIZERS ACT

DIRECTIONS FOR USE

Golf, Lawns and Sports Turf

Apply 4 to 5 ounces in 2 US gallons of water per 1000 ft² (130 to 160 ml in 8 L per 100 m²) at 30 day intervals. After an initial 5 ounce (160 ml) application, drought conditions can be best managed by applying 2 to 2.5 ounces in 2 US gallons of water per 1,000 ft² (60 to 80 ml in 8 L per 100 m²) at 15 day intervals.

For extreme drought conditions with high temperatures and/or increased soil water repellency, apply 6 to 8 ounces in 2 US gallons of water per 1,000 ft² (200 to 250 ml in 8 L per 100 m²) at 30 day intervals.

Irrigate with sufficient water to deliver **OARS H_S** to the soil profile - 1/8 inch (3 mm) or more is recommended.

DO NOT combine **OARS H_S** in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective and non-injurious under local conditions.

CONDITIONS OF SALE

WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

AQUA-AID GUARANTEE

OARS HS comes with a 100% money back guarantee. If you are not satisfied with OARS HS for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
