Minutes, CAC Meeting, Town of New Lebanon

Samson Environmental Center, Darrow School

Present: David Farren (scribe), Cynthia Creech, Jack Lancto

Absent: Larry Benson, Craig Westcott

The meeting was called to order at 6:40 P.M.

The cost of enlarging and laminating maps for the public comment sessions was discussed. Quotes are higher than anticipated from W.J. Blueprint in Pittsfield and we may need to be selective in the number we enlarge.

Another option would be to photocopy maps in their current dimension (11" x 17") and give a packet to every participant in the public comment sessions. Marked up copies could then be collected as primary source material.

Cynthia will check with Cissy Hernandez about the availability of the large wall maps already on display in the Town Hall.

The OSI draft was discussed, in particular the need for an updated map of agricultural lands that includes the most recent easements. CLC has provided updates to the town and Cynthia will check with Cissy Hernandez about the availability of a current map. The gravel quarry behind the high school is operating - no knowledge of a gravel mine in West Lebanon. The NYSDEC schedule for reinvestigating and mapping floodplains needs to be determined.

David will not be available for a meeting on August 12. Since we'll need lead time to put everything in order before the first public comment session on September 23, it was decided to meet one week earlier. Jack had checked with Howard E.S. about being the venue for our second public comment session in November and they were fine with it.

The next meeting is scheduled for Monday, August 5, at 6:30 P.M.

Meeting adjourned at 7:45 P.M.
