

COVID-19

In light of the recent outbreak of COVID-19 and what it may mean going forward, IdealATM wants to ensure that we are doing everything we can to keep our staff, customers, and community healthy. As this outbreak quickly evolves, preventative measures to slow the spread of this virus is our top priority.

SAFETY

At our office, we have disinfectant available for wiping all surfaces and equipment, and there is plenty of space available to work at a distance from one another. We encourage our staff to stay home if they feel unwell. During this time, some service response times may not be as prompt as usual, but we are working hard to ensure everyone is looked after.

CONTINUED SERVICE

As we continue to closely monitor the situation, our service department is actively helping customers. While businesses may be experiencing a decline in customer traffic, this may be an ideal time to do system maintenance and product enhancement.

We will post again if there are any changes. If you have any questions, please phone our office directly.

Sincerely,

Michael Iwaszkiw
Director of Operations
