

## Data sheet

---

### Dimensions

180" X 72" X 124"  
Weight: 4,000 lbs.  
(Total hardware & guns)

Umbilical:  
75' X 2" OD Extendable  
Weight: 40 lbs. (section)

Air Manifold Assembly:  
18" X 42" X 62"  
Weight: 350 lbs.

# Rig-Cluster

## Point source seismic array

The Rig-Cluster point source sound array, with various outputs from 80 ci to 2400 ci has been used on many rigs for Seismic While Drilling (SWD) surveys. Designed with rig deployment in mind with extendable umbilical up to 450' The whole system is easily moved with a 20' trailer.
