

FOREST MANAGEMENT

plan development

Matt
Woodlands

Spray Lake Sawmills is looking for individuals interested in being part of our Public Advisory Committee. Of particular interest are parties with an affiliation with recreational trail use, hunters, trappers or an environmental/naturalist background. This is a multi-stakeholder group which meets about four times a year. The group's primary mandate over the next three years is to act as a sounding board for the company, during development of its forest management plan.

More information on the Terms-of-Reference for this committee is provided on our website:

www.spraylakesawmills.com/woodlands

Interested parties are asked to provide a short bio and statement of interest and send via email to:

woodlands@spraylakesawmills.com
