

100%
PURE
HEMP CBD OIL

Cousin Vinny's CBD & More

Cousin Vinny's CBD & More takes pride in the fact that our plants are carefully bred and cultivated to produce the highest yield of hemp CBD, so that our oils offer **maximum** results. Better yet, we source 100% of our plants from farmers who grow and harvest using **sustainable** and **eco-friendly** methods, right here in the **United States**. Cousin Vinny's CBD products are produced under sanction of the U.S.D.A. We meet every legal requirement to sell in all 50 U.S. States. What does that mean for you? A safe, legal, high quality product that's good for you and the planet, all at an affordable price point.

What are CBDs?

Cannabidiol - CBDa - is the primary component of Cannabis Sativa, or Industrial Hemp.

Will this make me "high"?

No. In fact, CBDs counteract THC, which is the psychoactive compound of marijuana. Our plants contain less than 0.2% THC, so our products offer maximum health benefits of CBD.

Is this product safe?

Yes, absolutely. Though the FDA does not endorse hemp as a medicinal product, there are many case studies, and more research is being conducted on the benefits of using hemp or marijuana CBD in pain management and a variety of other applications. It is always best to consult with your doctor to see if hemp CBD may be right for you.
