Death Notification 201 (4 Hours)

There's no such thing as an easy death notification.

Each one is different. Each one has its own distinct emotion and reaction. Though one of the most frequent calls that Chaplains are asked to participate in, death notifications are often the most difficult calls to handle.

Death Notification 201 provides a review of the necessary foundation for Chaplains to provide sensitive, yet professional death notifications while adding an emphasis on the adolescent family member. This course focuses on the difference between a Non-Bereaved Adolescent and a Bereaved Adolescent in crisis and how to minister in both cases.

Topics

-  Introduction
-  Cardinal Principles of Death Notification
-  Death Notification Involving an Adolescent
-  Chaplain Recommendations
-  Grief Trajectories
-  3 Stages of Grief
-  Notification Scenarios

Schedule

The course will run from 9:00 am until 2:00 pm with an hour for lunch. We will conclude the day by participating in situational scenarios.
