

See Through the Cloud

RCH's speciality Cloud Managed Service provides the guidance, recommendations, and ongoing support you need to build and execute a successful Cloud strategy.

The Targeted Guidance You Need

Ground your Cloud-adoption or evolution initiatives by an objective strategy and proven model for execution.

Discover

Our engagement is based on a process to uncover, explore, and help you define the strategies and tactics that will align with your unique needs and goals.

Align

Whether it's business, security, regulatory, enterprise, or operational, we'll help you define critical outcomes and create a process and plan to satisfy a range of essential perspectives.

Scale

No matter where you are on your cloud Journey, no matter the scope of project or need, we can provide strategic and tactical support for a range of Cloud-related efforts, including:

- Storage and Compute Needs
- Data Migration
- Clinical Information Systems
- High-Performance Computing
- Security, Risk and Compliance
- Operations Integration
- Big Data and Machine Learning
- Artificial Intelligence (AI)
- Internet of Things (IoT)
- High Performance Computing
- Mobile
- End User Computing
- DevOps

Optimize:

Our comprehensive approach will help you take stock of your supporting compute stack and organizational culture to best accommodate your new technologies and workflows.
