The Denver Elections Division agreed with all three of the Audit Team’s recommendations. The recommendations and the auditee responses from the evaluation report are summarized below.

**Recommendation 1.1**

**Automate Ballot Manifest Information** – The Denver Elections Division should consider working with a Salesforce professional to identify possible system upgrades or modules that would allow for a more automated approach to gathering, documenting, and reporting ballot manifest information. If this is not feasible, compensating controls should be considered to validate the accuracy and reliability of the information in the spreadsheets.

Agency Response: Agree

**Recommendation 1.2**

**Continue Working with Secretary of State to Address Multi-Page Ballot Efficiency** – The Denver Elections Division should continue to work with the Colorado Secretary of State’s Office to determine how to identify specific contests in multiple page ballots in order to produce optimal ballot sample sizes in the risk-limiting audit process.

Agency Response: Agree
**Recommendation 1.3**  
Create RLA Performance Metrics – The Denver Elections Division should consider creating risk-limiting audit performance metrics, such as time and cost per ballot retrieved and time and cost per ballot reviewed, to measure risk-limiting audit performance over time.

**Agency Response:** Agree
