Aloha Mind Math

Walnut Creek, California

<https://lavalearning.org/aloha-mind-math/>

Phone: 925-448-7167

Date of Approval: 8/25/2016

E-mail: Aloha@lavalearning.org

Approved Services: Kids love solving problems! Your child will learn abacus and mental math techniques in a small class with personal attention from a qualified instructor. Students will develop agility with numbers, acquire visualization skills and improve concentration and focus. Your child will broaden his or her understanding of math and realize that they too can be math rock stars! Multiplication and division activities round out this fun class. Recommended for children age 5 through 12, while they have the neuroplasticity to develop visual thinking. Class fee \$149. Separate abacus and workbook \$49 fee. Start anytime, as your tuition will be prorated. Your materials will ship to you upon registering. You will receive a welcome email with more detail on what to expect from the program. Each child will get started with a private session to introduce the abacus and how the class works. Abacus math is a challenging, meditative and relaxing practice which can be done independently at home. This allows our zoom classes to remain fun and engaging to instill confidence and a love of math. Techniques on the abacus include adding, subtracting, multiplication and division and even square roots. We'll introduce mind math techniques, where our students will amaze themselves and how much math they can do mentally. Kids are especially good at visualizing and applying their imaginations in math. Number sense activities and games round out this fun experience.

Denied Services: Mind Math Junior, Mind Math Senior

Date of Approval: 8/1/2016

E-mail: astridsmusicclasses@gmail.com

Approved Services: Private Piano Lesson for all levels and grades. Each lesson focuses on piano fundamentals, theory, proper technique and sight reading. I want all of my students to thrive while learning and taking lessons. Everyone learns in different ways and in their own time, so frequently I adapt my teaching techniques for each student as I see fit. Private Voice LessonsVocal training is for students who have had no experience to those who have worked with previous experience. When I teach vocal training, I work on pitch, breathing, different styles and genres of music. I push my students to excel and to try all types and forms of singing. We work on different vocal techniques and building ones register. Music Theory Lessons.Music Theory is the foundation for growth in musicianship and craft. Music Theory 101 lessons start with the basics and build from their. Music Theory can be applied to all instruments and is beneficial for all students who want to grow in their musicality. Lessons are tailored for each students needs and personal goals. Whether you play an instrument and want deeper understanding or you are new to music and want to begin learning theory, these lessons are for you. Cost of lessons-Weekly Lesson times vary from 30 minute lessons at \$30, 45 minute lessons at \$45 and 60 minute lessons at \$60. Students can sign up for lessons and book with teacher at that time. Lessons are available Tuesdays, Wednesdays and Thursdays in Downtown Martinez and Mondays in Pinole at the second location.

Approved Services: Cantabella Children's Chorus is an internationally award-winning, secular, non-profit organization located in the Livermore Tri-Valley of the San Francisco Bay Area. We offer online classes during COVID. When we can return to in-person classes, our instructional area is in the area of San Ramon, Pleasanton and Livermore. CCC strives to foster and promote the appreciation of choral music in the community through performances at annual holiday and spring concerts local corporate and civic functions, and community outreach in collaboration with other musical organizations. Performances are on hold at this time. CCC strives to foster and promote the appreciation of choral music in the community through performances at annual holiday and spring concerts local corporate and civic functions, and community outreach in collaboration with other musical organizations. All performances are on hold until further notice but we continue to provide online choral instruction focusing on music appreciation, vocal technique, online choral singing, and music theory. Please see additional documentation for specific classes and schedules. The Cantabella Children's Chorus program consists of four major divisions: CTC: Cantabella Training Choir classes are taught in the Kodály approach for children K-5th grades. There are three levels of CTC classes: CTC-1, CTC-2, and CTC-3. CC: The Children's Choir is composed of auditioned choristers in the 5th-8th grades. CH: The Chamber Choir is composed of advanced SATB auditioned choristers in the 7th-12th grades. HC: The Honors Choir is an auditioned treble choir for choristers in the 7th-12th grades. Singers are placed in choir levels according to age, grade, maturity, music ability, theory knowledge and space availability.

Date of Approval: 10/8/2020

Approved Services: Our classes give students personalized coding education that fits their interests and goals. Because each student is unique, each student will receive a custom curriculum designed just for them. We have 15+ topics and programming languages for the student to try, and hundreds of projects they can work on with their teacher, in order to gain the necessary skills. Topics include Robotics, Python, JavaScript, Scratch, Python, and much more. Our classes are held in a 3-to-1 ratio or in a private 1-to-1 and each student will have a direct video and screen-share connection with the instructor. All students will be working on their own independent project and topic. This allows students to get a fully personalized learning environment where they can go at their pace, challenge themselves, and get creative with their work.

Denied Services: We don't provide any faith-based instructions.

Elisse Tweet Fine Art

Folsom, California

<http://www.tweetfineart.com>

Phone: 916-216-8722

Date of Approval: 12/13/2019

E-mail: artmrstweet@gmail.com

Approved Services: Teaching Method: In my art classes, children will learn fine art skills that will last a lifetime. I teach a classical method of drawing and painting that anyone can learn. At the first class, students will be given the step-by-step tools to build a drawing and add colorful, true to life effects to make a beautiful work of art. Not only will they build technical skill, but they will gain self-confidence. This decreases frustrations and opens them up to the joy that comes with discovering their own creative success. While classes take place in a group-setting, I work one on one with each child to allow them to work independently and progress at their own pace. About Class: Classes are weekly 90 minute semi-private lessons. Students of all ages and levels are taught simultaneously, so you may sign up for any class time that fits your schedule. Classes are age 5-teen (Kinder-High School), with a maximum of 6 students. Classes are attended once a week, on a month to month billing/voucher cycle. Students begin class at bench easels with a drawing warm-up. They then choose a step-by-step drawing suitable for their level. When the drawing is complete, they add color using pastels, learning color theory, shading, and realistic effects. After cleaning up their work area, I present a mini art show during the last 10 minutes of class where parent attendance is welcome. Once students have mastered drawing they may progress to watercolor painting. Art Camps: Holiday Sessions run 2-3 days a week from 9am to Noon. Each day begins with a regular fine art lesson as offered in weekly classes. After a snack break, we create a themed group craft project. My mission is to teach children foundational drawing and painting skills to bring them joy in art and confidence in themselves. Homeschooling/Morning Voucher Pricing: \$300/Semester (3 months) per child for weekly 90 minute classes or \$100/month Out of Pocket or \$25 prorate per class. \$130 / Art Camp Session Materials fee is incorporated into the voucher price and all supplies are provided. There are no makeups or class credit for missed classes

Evolve Aikido

Antioch, California

<http://www.evovemovementcenter.com>

Phone: 925-207-8656

Date of Approval: 8/15/2016

E-mail: evolvemc@comcast.net

Approved Services: Aikido is known as the non-violent martial art. It is from Japan and teaches students to work with natural body movements instead of how to hurt people. Aikido training fosters confidence, safety, power, and health in a fun, supportive and disciplined environment. New students are invited as our guest to try a few classes to be sure Aikido is a good fit. Our 2020-21 school year programs include (so far):~Minis, (ages 4-7), Mon-Thu, 3:15-4pm~Juniors, (ages 7-12), Mon-Thu, 4:15-5pm~Teens, (ages 12+), Mon/Wed, 6-7pm~Custom small group times available for 5+ students, and private lessons are available for kids who learn better 1/1. Currently, all classes are offered virtually via ZOOM. These classes are currently geared toward preparing students for Aikido mastery, while at the same time offering exercise, stress relief, self-control tactics, and safe social interaction. Sensei Lucky, Owner and Chief Instructor, is a 4th degree Aikido blackbelt, holds a blackbelt in Kung Fu, and has taught hundreds of kids in her 30 years of experience. She is committed to helping students find their inner "superhero" through Aikido training. Fees are \$70/month, and includes the registration/insurance fees, uniform t-shirt, and promotion fees. No long-term commitment required.

Sacramento, California

<http://jsreadthinkwrite.com>

Phone: 916-688-8701

Date of Approval: 9/21/2017

E-mail: jsreadthinkwrite@gmail.com

Approved Services: One-on-one tutoring; small group instruction EARLY US HISTORY (late 1600's - 1860)/ENGLISH LANGUAGE ARTS 8th grade - 12th grade History/Language Arts This class will focus on the founding and early development of the United States and its government. Through the use of historical textbooks, historical literature (primary and secondary sources, fiction and non-fiction), and various media, the student will interact with events and ideas that influenced and formed the development of the republic and the growth of the new nation to the beginning of the Civil War.

The expected format will be pre-class, at home reading and viewing, two-hour class lecture and discussion, and separately scheduled, as needed one-on-one interactions. In order to encourage writing development and maturation, writing instruction will focus on crafting sentences and paragraphs (and eventually an essay on an assigned topic). The assignments will be designed to facilitate careful reading, thoughtful analysis, and intentional responses. Classes will meet weekly for two hour class sessions; three weeks on/one week off monthly. The last week is reserved for one-on-one sessions as needed. \$250/month One-on-one sessions available for English Language Arts. 1 hour/week. \$55/hour for established curriculum \$60/hour for individualized and intentionally developed curriculum

Kimberly V. Art

Concord, California

<http://kimberlyvotaw.com>

Phone: 925-391-7431

E-mail: kim.votaw@gmail.com

Date of Approval: 8/14/2017

Approved Services: At Kimberly V. Art I offer several different art classes: "Oil and Watercolor" ~ switching off 2 months of each (age 10+); "Drawing" ~ every other week we will draw a scene/object, then the next week we will render it in watercolor pencil; and "Art Class". Art Class this year is "Art through the Ages ~ Contemporary through Medieval" with a little art history and a lot of hands-on fine art work in several different mediums. I offer 1-month sessions in all classes and the costs vary from \$80 to \$120 per session depending on virtual only or in-studio/hybrid and what class you are taking. My class sizes are small, personal and enjoyable. I love to impart the joy of art within a framework of excellent technique. Please visit www.kimberlyvotaw.com for more information, class times, and registration.

Literacy Access

Berkeley, California
<http://ivysandz.com>

Phone: 510-528-8773
E-mail: ivy@ivysandz.com

Date of Approval: 8/5/2016

Approved Services: LITERACY ACCESS / IVY SANDZ Reading, Writing, History, Literature K-12 www.ivysandz.com At Literacy Access, we offer skilled, individualized reading and writing instruction grades 1-12 in a relaxed, supportive environment. WRITING INSTRUCTION: Emerging Writers (K-2nd): For emerging writers, we focus on beginning story writing through a process called interactive writing (the sharing of the pen between teacher and student). This then moves into independent writing work. Creating a message, basic storytelling, translating sounds into print, letter formation, and familiarity with written word chunks and sight words are developed. Young Writers (1st-3rd): As young writers progress, sessions focus on creative writing. We learn to develop story problems, characters, setting, dialogue and description to create interesting stories. We can also focus on how to collect information from nonfiction texts and then write about what we've learned (beginning research). Upper Elementary/Middle School Writers (4th-8th): Individual sessions can focus on creative writing or supporting academic growth in writing. As kids transition into upper elementary and onto middle school, they are also developing and later refining writing skills in the formats of persuasive essay, literature response, summary, and expository writing. We support each writer to gain skills and confidence in each of these writing processes. High School Writers (9th – 12th grades): Sessions at this level focus on literature response essay writing, research-based persuasive essays, and other forms of academic writing with attention to solid organization and thesis development, voice and audience awareness, advanced editing skills, and advanced critical thinking. LITERATURE/HISTORY STUDIES: Upper elementary, middle school, and high school students have all moved from "learning to read" to "reading to learn." At this stage, deep learning about historical topics and study of literature both lend themselves to the development of critical thinking, subject matter knowledge, and the writing of reflections, summaries, and formal essays. I enjoy combining readings from historical non-fiction texts with historical fiction to help students understand what life in that particular time was like. READING INSTRUCTION: For younger readers (1st-4th grades), sessions grow a child's independent reading level through work on the following: ~ Reading strategies and techniques for decoding ~ Fluency and expression ~ Thinking strategies to improve comprehension ~ Sound/letter recognition ~ Phonics/Sight Words ~ Confidence in learning For older readers (4th-6th grades), sessions may include: ~ Remediation for struggling readers ~ Training in strategies to build comprehension including inferencing, self-monitoring, making connections, predicting, clarifying, questioning, and evaluating ~ Fluency building

Math with Mrs. Fish, Laura Fischer (formerly Math with Mrs. Fish)

Boise, Idaho

<http://mathwithmrsfish.com>

Phone: 208-996-9889

E-mail: mathwithmrsfish@gmail.com

Date of Approval: 7/16/2018

Approved Services: Math with Mrs. Fish provides a complete math curriculum and online instruction for sixth, seventh, and eighth graders. Students may enroll as an "advanced" student or for remediation. The classes meet online using Zoom on Tuesdays and Thursdays. Eighth grade is 8:00 a.m. to 9:00 a.m. Seventh grade is 9:30 to 10:30 and sixth grade is from 11:00 to noon. The cost is \$450 per semester. The sixth and seventh grade curriculum is a one-time charge of \$50 for the year and is mailed to families. The eighth-grade curriculum is sent to families digitally and is printed at home. To offset the printing costs, there is no charge for the eighth-grade curriculum. The curriculum is 100% aligned to the Common Core State Standards, which means that any concept on the state standardized testing will be covered in class. The tone of the curriculum is conversational and frequently humorous. Laura Fischer, aka Mrs. Fish, has 30+ years of teaching experience and is a fully credentialed teacher in California. Middle school math is her passion and she has turned many math-haters into math-lovers (or, at least, math-tolerators).

Piano Forte Music Studio

Citrus Heights, California

<http://>

Phone: 916-242-0760

Date of Approval:

3/1/2018

E-mail: nataliesstudios@gmail.com

Approved Services: Piano Forte Music Studio provides private piano and theory instructions for students of ages 4 and above in the greater Sacramento area individually or virtually. Lessons are held weekly for 30, 45 or 60 minutes. The goals of Piano Forte Music Studio are to provide an environment suitable for the instruction and enjoyment of music. Lesson programs are designed to meet specific needs of each student. This includes a balance of theory, sight playing, ear training, and repertoire appropriate to the student's level of proficiency. Students will be encouraged to participate in programs designed to further these goals, such as Recitals, Competitions, Festivals and adjudication through National Guild of Piano Teachers, Music Teachers Association of California and Royal Conservatory of Music. Studio Recitals and other performance opportunities are available throughout the year and are offered for the benefit of all students.

Date of Approval: 10/4/2016

E-mail: richayalaguitar@gmail.com

Approved Services: Rich Ayala Music Pacific Charter Schools Services Provided All instruction is virtual or via video as per Covid -19 Restrictions require. Lessons consist of Guitar, Ukulele, banjo and bass guitar.

Students are instructed on the basics of the instrument of their choice. Subjects covered are strumming, Picking, fingerpicking and the fundamentals of music. The lessons are relaxed and built around the goals and interests of the student. Popular music as well as some great songs of the past are used. I always work toward helping the students learn songs of their choice as well.

Lessons are conducted weekly in 30 minute sessions. Material is emailed to the student as well as a Zoom link unless the student has a preferred video format. Facetime is also a popular video platform.

Phone: 925-415-3340

Date of Approval: 8/23/2018

E-mail: sanramon@schoolofrock.com

Approved Services: Rookies - \$104 per month Our music program for young children ages 5-7 with no previous musical experience is called Rookies. Rookies students have one weekly group music lesson where they learn fundamentals like chords, rhythm and song structure using age appropriate games and activities. During remote time this course is divided into two 30 minute sessions per week and taught via zoom. Rock 101 - \$314 per month Rock 101 is our program for kids and beginners ages 7-10. Students have one weekly 60 minute group rehearsal where they learn to play songs for beginner musicians. Rock 101 students also have a weekly 30 minute individual lesson to learn the concepts and skills behind the songs they are learning. Each Rock 101 group will record an album of songs and a music video which they will share with family and friends at the end of the season. Performance Program - \$366 per month The Performance Program is our core music program for students aged 11-18. It consists of a weekly 1.5 hour group rehearsal where kids and teens learn by playing rock music's most iconic songs with a band composed of their peers. Students are assigned songs and parts that are tailored to them based on their age, experience and ability. This program includes weekly 45 minute individual lessons, refining the skills and concepts that those songs introduce. During remote time lessons and rehearsals are taught over zoom. Students work on recording and mixing an album of songs and a music video to share with family and friends at the end of the season.

Date of Approval:

1/7/2020

Approved Services: The People's Conservatory fosters high level arts creation, study and performance in an effort to promote cultural awareness and positive social change. As artist educators we help young artists reveal themselves by facilitating experiences that help focus on growth and expansion. TPC's curriculum incorporates a wide range of teachings rooted in ethnic and cultural studies, using our students' inherent artistic voices to make them the next generation of culture keepers. TPC trains young artist explorers, with a dedicated focus on brown and black youth from marginalized and economically blighted communities, to envision and create a humane and just world through their art. Our faculty of working artistic professionals helps young people find their creative voices, re-imagine their communities' most pressing social problems, and transform from cultural consumers to cultural producers. TPC will establish a central hub to house its artists and programming as well as provide a base for arts and culture to be supported and to thrive in Oakland. Students in our conservatory develop a lifelong commitment to learning as they are given the voice and agency to become the new leaders of tomorrow.

Date of Approval: 9/30/2019

E-mail: twalea@unconventionalconcepts.com

Approved Services: All classes will be offered virtually until otherwise safe to participate in-person due to COVID 19. **CEO Academy Course** The objective of the CEO Academy Entrepreneurship Program is to expose young children to entrepreneurship and financial literacy principles, and to give them the opportunity to earn money as an entrepreneur. This program is offered virtually and in person. Specifically, the program will feature: • Three (3) workshops on entrepreneurship, financial management, and charitable giving; • Creating a mini business plan; • Implementing the business plan and financial principles at our public expo/showcase (virtual sales or in-person); and • Earning money from the created business. **Program Cost** The cost of the program is one hundred fifty dollars (\$150.00). This cost will include: • Participation in three (3) workshops; • Written workshop program materials; • A CEO Academy Entrepreneurship Showcase (Virtually/In-Person); • Marketing materials for the showcase. **Program Eligibility** The program is designed for children ages 6 – 17 years old. **World School Project** Our World School Project is beyond extraordinary! We take learning beyond the pages of a book. We immerse ourselves in a culture and make it become concrete. The students that participate in this program will participate in workshops for three months where they learn about a particular region and culture, and then they will travel to that region to experience all that they have learned. The students will make exciting lifelong memories with their new and old friends. This is a thematic program that incorporates math, social studies, art, reading, geography, engineering, and technology. **Program Cost** The cost of the program is broken down into two components: (1) The geography/social studies course, and (2) The travel. The geography/social studies course portion of the program cost is \$300. Each travel cost will vary based on the location and length of the course trip. Detailed information about the cost of the travel will be available here prior to the start of the course. Our goal is to keep the cost affordable for our families so that travel can be accessible to all demographics that we serve. We also offer payment plans for the cost of travel. **Program Eligibility** This program is open to children of all ages. **Fun School Courses** Students participate in small-group classes with other students that are learning the same topics and standards. We are always adding to our course offering based on our membership, and the interests of our students. What we do is a reflection of what they want to learn about. These classes range from math, science, reading, and art. Membership for classes are as follows: \$25- per class, or \$150 - per month

Approved Services: Online: Ages 9+ Life Science: Our Scientists will explore the hows and whys of our natural world through hands-on experiences and observations following the scientific process.

Math: Our Mathematicians will learn through hands-on projects that we will use to expand our abilities around the four processes, paradigm thinking, problem solving, and collaborative games

Language Arts: Our Poetry and writing will be explored through the art of songwriting. We will explore various styles and genres, while developing our own voice. Students will collaborate and work independently as we craft original songs.

Our emphasis will be on fearless expression through writing and music. Access to a recording device is helpful but not necessary to participate in this class. Students should feel confident in writing down their ideas by hand or digitally.

Social Studies: Our Socio-geographers will celebrate the diversity of our world learning of and from indigenous cultures. We will begin locally, regionally, and expand globally in our virtual travels.

Friday Morning: Games - Play Favorites and Make Our Own Our gamers will divide their time between playing games and designing our own. We will collaborate to develop games that explore various mechanisms such as dice, cards, deck building, and/or board. As we play, we will look at ways we might alter the game, strategizing the various outcomes, and leveling up.

Afternoon French We will explore the French language through common interests and creating our own Picture Dictionary of the words we know. Songs, verses, and stories will be part of our journey together.
