## **LIMITING & QUALIFYING CONDITIONS OF APPRAISAL**

1. Unless otherwise stated, the appraised value(s) is based upon the whole interest and possessory interest undiminished by any liens, fractional interests or any other form of encumbrance or alienation.
2. The appraisal is to be made at the request of the employer named for his/her/its use. It is not an indication of certificate of title or ownership. The identification of the interest of the employer is simply represented to the appraiser by such party and no inquiry or investigation will be made nor is any opinion to be given as to the truth of such representation.
3. Unless otherwise stated: the appraisal is based only on the readily apparent identity of the item(s) appraised based on the appraiser's experience and expertise; none of the framed artworks or objects were examined outside their frame, or examined outside their onsite environment. Information that may be obtained by inspecting the objects outside their frame, or from technical, scientific or laboratory analysis may provide significant information that could affect the valuation provided. The expressed condition of the item is subject to the same caveat as noted above.
4. The value(s) expressed is based on the appraiser's best judgment and opinion and is not a representation or warranty that the item(s) will realize that value if offered for sale at auction or otherwise. The value(s) expressed is based upon current information on the date made and no opinion is expressed as to any future value, nor, unless otherwise stated, as to any past value.
5. The total of the individual item values shall not be construed as an appraisal value for the whole collection, but merely as the addition of single values.

ASA & USPAP Compliant Professional Appraiser

6. Unless otherwise stated, value(s) expressed is based on the expertise and qualifications of the appraiser as to the appropriate market and valuation level for the item(s) and purpose involved.
7. Where appraisal is made on a sample of a larger whole, it is based on the assumption that the sample is representative and fair. No opinion or warranty is to be made as to the fairness or representative nature of any large whole from which the sample was drawn.
8. It is understood that neither the employment to make the appraisal nor the compensation therefore is contingent upon the value provided.

UNOFFICIAL - NOT ENGAGED
