THE ENERGY CORRIDOR

A Profile of Houston’s Premier Business District
 Where Energy Lives
Home to the headquarters and regional offices of prominent global firms within the energy sector and beyond, the Energy Corridor District consists of over 2,000 acres, stretching along IH-10 from Kirkwood Road to west of Barker Cypress Road, and extending south along Eldridge Parkway to south of Briar Forest Drive. The District also offers access to assets such as Buffalo Bayou, Terry Hershey Park, various recreational trails, and adjacency to over 26,000 acres of parks and open space.

The Energy Corridor District
The Energy Corridor District is an advocate for the Energy Corridor. The District’s mission is to promote, develop, maintain, and enhance the Energy Corridor District through implementation of projects, services, and initiatives in the realm of public safety, transportation and mobility, infrastructure, streetscape, and economic development. Through active leadership, advocacy, and collaborative efforts, the District works to accelerate area improvements for long-term economic vitality. The Energy Corridor District’s services are funded through assessments paid by commercial property owners.
**Employment by Industry**

The Energy Corridor’s employment stands out for its concentrations of jobs in the high-wage sectors of Energy Sector Professional, Scientific, and Technical Services, which includes engineering firms.

**Employment by Education**

The jobs in the Energy Corridor call for a substantially higher educational attainment than the metro area average. Nearly one-third of all jobs in the Corridor are held by college graduates.
Population Trend

The Energy Corridor has participated in the residential growth of the Houston region. The Corridor’s rate of population increase has been considerably faster than the metro area total.

Educational Attainment

Compared to the total adult population of the region, the Energy Corridor has an exceptionally well-educated adult population. An estimated 55% of adults in the Corridor have a bachelors degree or higher.
Long-Term Projections

The Corridor is projected to continue its strong growth in jobs, population, and households over the coming decades.
The Energy Corridor’s office space is of exceptionally high quality relative to the region overall, with approximately 80% of square footage in Class A buildings.
