### TERMS OF ACCEPTANCE

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

**ADJUSTMENT**-An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxations. Our chiropractic method of correction is by specific adjustments of the spine.

**HEALTH**-A state of optimal physical, mental and social well being, not merely the absence of disease or infirmity.

**VERTEBRAL SUBLUXATION**-A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease. We only offer to diagnose either vertebral subluxations or neuro-musculoskeletal conditions. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations. However, we may use other procedures to help your body hold the adjustments.

A patient, in coming to the doctor of chiropractic, gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis, and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problem. In rare cases, underlying physical defects, deformities, or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a chiropractic adjustment, or health care, if he/she is aware that such care may be contradicted. Again, it is the responsibility of the patient to make it known or to learn through health care procedures, whatever he/she is suffering from: latent pathological defects, illnesses, or deformities which would otherwise not come to the attention of the doctor of chiropractic. The patient should look to the correct specialist for the proper diagnostic and clinical procedures.

I, \_\_\_\_\_ have read and fully understand the above statements.

(Print Name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction.
