

PRECISION

OUR APPROACH:
INTENTIONAL TRAINING

REAL WORLD PREPARATION

We do heavy lift operations, Christmas Tree harvesting, fire suppression, wine tours, heli-skiing, camera work.

We work for/partner with State and Governmental agencies (USFS, DOI, Police), media companies (BBC), heavy lift operators/industry leaders (AAR, HTS), and tour companies (North Cascade Heli).

HIGHEST REGULATORY STANDARDS

FAA Certificated 141 Flight School

VA Approved Flight School

Klamath Community College Aviation Science Degree contracted flight school provider

PURPOSEFUL TRAINING FACILITIES

NEWBERG, OREGON, 17S:
Privately owned, public use dedicated training facility

KLAMATH FALLS, OREGON, KLMT:
High-Density altitude, National Guard base

FLEET BUILT FOR TRAINING

We're not beholden to suppliers or bound by specific assets. We have selected the right machines to train, just as we match up our instructors with the training requirement.

GUIMBAL CABRI G2:
Safe, Reliable, Modern

CESSNA 172:
Stable, dependable, robust

FLIGHT TRAINING COURSE HOURS AND PRICING

Be aware of smart advertising and hidden costs. Many flight schools will assign costs based on the FAA minimums. They might also include a fuel surcharge or additional landing fees. We are upfront and honest about costs. To assist in the process, we have put together these course hours and pricing sheets showing the FAA Minimums side-by-side with actual Part 61 averages, and our 141 course for a true tool to use for comparison. Ultimately, the work is up to you to pass each check-ride and consistency in training is key!

Part 61

Customized training plan

Ground primarily self taught, supplemented with online/book resources

Part 141

FAA certified training curriculum

Robust series of flight and ground lessons

All courses are built around the following standard rates:

Type	Model/Description	Rate/Hr
Flight and Ground Instruction	Private pilot, instrument and advanced training	\$68.00
Guimbal Cabri G2	Most advanced trainer on the market. Safe, responsive, modern	\$387.00
Cessna C172N/M	Models equipped with Garmin 650, dual G5's, ADSB In/Out, Autopilot	\$147.00
Piper Arrow PA-28R-200	Conventional Instrumentation	\$167.00

One of the best places to start, is to visit! Call us today to book a tour or take an Intro Flight and take the controls with an experienced instructor!

PRIVATE PILOT CERTIFICATE – ROTORCRAFT

If you wish to fly for fun, or are taking the first step toward a career as a pilot, this is where it begins! You will get to experience the thrill of your first solo flight and are instructed in the basic principles of flight, fundamental flight maneuvers, preflight procedures, navigation and cross-country operations, takeoffs/landings, emergency procedures and night operations.

COURSE PREREQUISITES

Be at least 17 years of age
 Read, speak & understand the English language
 Hold at least a 3rd Class Medical

FAA MINIMUM PART 61 REQUIREMENTS; FOR REFERENCE ONLY

30 hours Dual Training	\$13,650
10 hours Solo Training	\$3,870
	<hr/>
	\$17,520

COST BASED ON FAA MINIMUMS; FOR REFERENCE ONLY

Flight and Ground Training	\$17,520
Checkride Costs (Examiner Fee plus rental)	\$1,300
Written Exam	\$160
	<hr/>
	\$18,980

PART 61 AVERAGE HOURS

45 hours Dual Training in a Cabri G2	\$20,475
10 Hours Solo Training	\$3,870
14.5 hours Pre/Post Instruction	\$986
20 hours Ground Instruction	\$1,360
	<hr/>
	\$26,691

COURSE COMPLETION

Pass an FAA Written Knowledge Test
 Pass an Oral and Practical Flight Test

ESTIMATED DURATION

Start your training at any time.
 Estimated Duration: 6-10 Weeks.

Pay as you go, NO upfront payments required. 5% credit for every 5k placed on account. Books & Training Material not included.

INSTRUMENT / COMMERCIAL COMBINED 141 COURSE – ROTORCRAFT

Under Part 141 regulations, the FAA has approved our Special Curricula Combined Instrument and Commercial Course which allows you, as the student, the ability to accomplish both your Instrument Rating and Commercial Certificate in one course and in less hours. This saves you time and money!

COURSE PREREQUISITES

Hold at least a Private Pilot Certificate with Rotorcraft category/class rating.

Read, speak & understand the English language.

Hold at least a 3rd Class Medical.

PRECISION 141 COURSE

84 Hours Dual Training	\$38,220
33 Hours Solo Training	\$12,771
29 Hours Pre/Post	\$1,972
80 Hours Ground Instruction	<u>\$5,440</u>
	\$58,403

COST BASED ON COURSE OUTLINE

Training	\$58,403
Checkride Costs	\$3,200
Written Exam	<u>\$360</u>
	\$61,963

ESTIMATED DURATION

Start your training at any time.

Estimated Duration: 12 to 20 Weeks

Pay as you go, NO upfront payments required. 5% credit for every 5k placed on account. Books & Training Material not included.

CERTIFIED FLIGHT INSTRUCTOR (CFI) RATING – ROTORCRAFT

Your first career step is likely to be working as a flight instructor. The Certified Flight Instructor (CFI) Rating is required if you want to instruct other pilots.

COURSE PREREQUISITES

Hold at least a Commercial Pilot Certificate with Rotorcraft category/class rating
 Read, speak & understand the English language
 Hold at least a 3rd Class Medical

CAREER PATH SNAPSHOT

If your goal is to be a career pilot, the most common path is to work through your ratings Private, Instrument, Commercial, Certified Flight Instructor (CFI), Certified Flight Instructor - Instrument (CFII) and then instruct until you build up your hours. Course costs below include our 141 Courses, pre/post, FAA Knowledge Tests and Check-ride Examiner Fees.

Course	Ground	Flight	Cost
Private Pilot	55	55	\$30,531
Commercial Instrument Pilot	80	117	\$61,323
Certified Flight Instructor	40	25	\$16,423
Certified Flight Instructor - Instrument	22	18	\$11,418
Total	197	215	\$119,695

COLLEGE PROGRAM

We contract with Klamath Community College to provide the helicopter and airplane flight training for their aviation degree program! This partnership allows students to obtain an associate's degree while completing your flight training with us. Classes can be taken online, offering students the opportunity to train at either our Newberg or Klamath Falls location.

If you are interested in pursuing an Associates Degree and/or looking to use your GI BILL, FAFSA, Sallie Mae or Bank Student Loan Programs, this is the path for you!

<https://www.klamathcc.edu/Academics/Programs/Aviation-Science>

BUILT FOR TRAINING.

ADD-ON; PRIVATE PILOT CERTIFICATE – ROTORCRAFT

If you are adding helicopter to your list of accomplishments, we can work you through an Add-on rating!

COURSE PREREQUISITES

Hold at least a Private Fixed-Wing Rating
Read, speak & understand the English language
Hold at least a 3rd Class Medical
