

## **Hello Rockreation Family/Community,**

(one of those or something like it)

It has been a long seven months and we are hoping this newsletter finds you all safe and healthy. We are excited to see those of you who have been climbing at our OC location and missing those of you who have not made it back yet.

We have been working hard to evaluate our situation and make good decisions for all our members and staff as to when and how we can open. We have been speaking with experts like health officials and scientists, other gym owners, the Climbing Wall Association, city leaders and others to gather information about the best way to come back during the pandemic. We believe that the evidence shows that we are a unique environment that has high ceilings, great ventilation, and large spaces so we could be open at a limited capacity right now.

With this information in mind, Rockreation has decided to join a growing Coalition of over 20 Indoor Climbing Center Companies representing over 50 locations to ask our leadership in CA to consider our data and allow us to open up at a limited capacity.

Now is the time where you in the climbing community could help all of the climbing centers in CA by clicking the link below and sending a message to our legislators.

We look forward to the day we can all be together participating in the sport we love. Here's to seeing you all soon!

Sincerely,

Rockreation
