

**Brownfields 2016 Cleanup Grant Fact Sheet**  
**Greylock Flume Inc., North Adams, MA**

**EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

**Cleanup Grant**

*\$200,000 for hazardous substances*

EPA has selected Greylock Flume Inc. for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Greylock Flume on 506-508 State Road. The site was the source of power for a former textile mill, the Greylock Mill, and is contaminated with semi-volatile organic compounds, metals, and PCBs. Grant funds also will be used for community involvement activities.
