

Navigating the Pandemic with Love and Inner Peace

Imagine going through this pandemic with a sense of love and inner peace. Imagine being filled with joy instead of anxiety, confidence instead of trepidation about what the future might hold or knowing that you are healthy and whole instead of fearing contracting a virus. Who would have thought that during this pandemic that a new, uplifted personal paradigm could be created? Quantum Sound Therapy.

For nearly a decade and a half, I have been working with Quantum Sound Therapy as an end user. This transformative company has created a variety of scalar wave energy tools, called iQubes, that emit a multitude of frequencies designed to create a 24x7 zero-point field in any environment.

Products include the Quantum OM Pocket Portable Brain Training, The Quantum Miracle IQube, the Focus IQube (I own all three) the Quantum Tesla IQube. Each device includes both an AM and a PM soundtrack designed to clear your environment and naturally align you with the specific needs. These frequencies are delivered by using inert noble gases and wave form soundtracks to deliver the frequencies.

Quantum Sound Therapy frequencies assist to balance and create total relaxation, awaken organs and glands, provide clearing and protection from extraneous emotional energies, EMF's, the discordant or incoherent energy of all kinds. It includes a grounding and a heart opening frequency that acts to attract what you need in your life, to mention a few. You can visit their website to learn more about each IQube and the frequencies they emit.

Quantum Sound Therapy continues to develop new frequencies to assist our modern world. They have recently released a new frequency call the Corona Virus Immunity Protection Soundtrack which can be played on your computer if you do not own an IQube. Please understand that no medical claims are expressed or implied. These technologies are intended for experimental and research purposes only; however, after using them myself, I can attest to the positive impact they have had on me, my family and clients.

To say that Quantum Sound Therapy is cutting edge does not begin to describe them, but don't take my word for it, check them out for yourself at quantumsoundtherapy.com. To order use Quantumsoundtherapy.com/innerpeace2020.
