Workers' Compensation Report Summary

- This report helps ensure that you hire employees with strong safety records.
- Lets you identify those applicants who pose a direct threat to the safety of themselves or others on the job or who have filed excessive claims.
- Report turnarounds average 1-2 days on most requests; some requests take longer due to state-mandated procedures.
- Workers' Compensation Reports must always be used within the guidelines of the Americans with Disabilities Act.

Features

- Reports include information collected at the state level regarding reports of injury and court-contested claims.
- Reports will typically include employer's name, date of each incident, time lost from work, type of injury, body part affected by the accident and disposition, but will vary by state.
- Selection.com gathers this information directly from each state's records.
