The Manitoba Runners' Association is often the first place that the media comes to for important information about road running in Manitoba. We help to create a sense of community and comradery among Manitoban runners. Membership in the MRA not only strengthens the Association; it improves its negotiating stance with outside organizations and funding agencies and increases its ability to promote the benefits of running to all Manitobans. In essence, the MRA is helping to promote humanitarianism by supporting events that give back to their communities.
