

köld Seal noncabled and cabled insulated bundles are comprised of flushable **köld Seal** tubes, each color coded and individually numbered, and red/blue-colored coolant tubes strategically placed and designed to provide optimum cooling and flavor protection.

A tear-resistant aluminized film wrap over the group of tubes further enhances the insulating properties of the 3/4" thick tubular foam sleeve. A black extruded jacket with slip agent to minimize friction is branded with product identification, NSF listing marks, and footage counter marks.

- Used for draft beer, wine, cocktails, coffee and other non alcoholic beverages
- Gas barrier layer with outstanding hygienic quality
- Ultra smooth lining
- No cross contamination of flavors
- Cut to length upon order, up to 500 feet
- Color coded lines for easy identification
