FOR YOUR SAFETY READ BEFORE LIGHTING

“WARNING – If you do not follow these instructions exactly, a fire or explosion may result causing property damage, personal injury or loss of life.”

A. This appliance has a pilot which must be lighted by hand.
B. BEFORE LIGHTING smell all around the appliance area for gas. Be sure to smell next to the floor because some gas is heavier than air and will settle on the floor.

WHAT TO DO IF YOU SMELL GAS:
1. Do not try to light any appliance.
2. Do not touch any electric switch; do not use any phone in your building
3. Immediately call your gas supplier from a neighbor’s phone. Follow the gas supplier’s instructions.
4. If you cannot reach your gas supplier, call the fire department.

C. Use only your hand to push in or turn the gas control knob. Never use tools. If the knob will not push in or turn by hand, don’t try to repair it, call a qualified service technician. Force or attempted repair may result in a fire or explosion
D. Do not use this appliance if any part has been under water. Immediately call a qualified service technician to inspect the appliance and to replace any part of the control system and any gas control, which has been underwater.

LIGHTING INSTRUCTIONS

1. STOP! Read the safety information above on this label.
2. Push in gas control knob slightly and turn clockwise to “OFF”
3. Wait five (5) minutes to clear out any gas. If you then smell gas, STOP! Follow “B” in the safety information above. If you don’t smell gas, go to next step.
4. Find pilot – follow metal tube from the gas control behind the burner.
5. Turn knob on gas counter-clockwise to arrow in the center of the knob.
6. Push in control knob all the way and hold in. Immediately light the pilot with a match. Continue to hold the control knob in for about one minute after the pilot is lit. Release knob and it will pop back up. Pilot should remain lit. If it goes out, repeat steps 3-7
   • If knob does not pop up when released, stop and immediately call your service technician or gas supplier.
   • If the pilot will not stay lit after several tries, turn the gas control knob to “OFF” and call your service technician or gas supplier.
7. Turn gas control knob counterclockwise to “ON”

TO TURN OFF GAS TO APPLIANCE

1. Turn knob clockwise from “ON” position to the center arrow position. Push in the gas control knob slightly and turn clockwise to “OFF”. Do not force knob.
