**THE SUNNY ORTHODOXY**

...
The Companions are held as the ultimate role models for moral and religious practice. The Prophet (SAW) placed a great deal of emphasis on the teachings of the Companions, and his guidance is often cited as an example of how to live a virtuous life. The Companions are praised for their loyalty, devotion, and wisdom.

In Islamic society, the Companions were seen as the pillars of the faith, and their actions served as a model for others to follow. They were known for their strong sense of community and their commitment to serving the Prophet (SAW) and the wider community. The Companions were also known for their generosity and their willingness to help those in need.

The Companions played a vital role in spreading the teachings of Islam, and their influence can still be seen today. Their legacy is a reminder of the importance of moral and religious practice, and the value of following the example of those who have come before us.
THE SUNNI ORTHODOXY

THE HEY OF SUNNISM

Building on a sufficient position in order to look different from the Qura\'an in subjects that are more school subject, some Muslim doctors, in order to interact with the "ayat ul krimma" have described the concept of "sunniism" as a collection of different methods of understanding and interpreting the text of the Quran. This collection, they have suggested, is a result of the efforts of the scholars who have come to understand the Quran in a way that is consistent with the Sunnah of the Prophet Muhammad (peace be upon him). This approach has been criticized by some as being too subjective and too focused on the personal interpretation of the scholar. However, many Sunnis believe that this method of understanding the Quran is the most authentic and closest to the intention of the Prophet and the early Muslims.
