

Brillseat Announces Health Benefits of Using Toilet Seat Covers As Casinos Invest in Brillseat Toilet Covers

Casinos all over the United States choose Brillseat toilet covers because of the many health benefits associated with investing in Brillseat toilet covers.

Delray Beach, FL ([PRWEB](#)) January 31, 2013 -- Because many people are often uncomfortable using public restroom, a stigma of the public restroom has been created. Alan Brill has the solution for those who are hesitant towards public restrooms because of sanitary reasons: the Brill sanitary toilet seat. Brillseat has announced the many health benefits of using toilet seat covers, and among the many that have noticed are casinos.

Many casinos have taken note of this hygienic solution, and to make the guest experience even more comfortable, Gila River Casinos has opted to install Brill sanitary toilet seat. The Lone Butte and Vee Quica casinos have followed suite and have installed these toilets in their casinos.

Brillseat toilet-seat covers can be found in women's restrooms in Radio City Music hall in New York City, and in ladies rooms at Yankee stadium.

Brillseat toilet seat covers offer many benefits:

Sanitary conditions improved: Public restrooms are one of the easiest ways for harmful germs and bacteria to gather. When Brillseat covers are installed, the restrooms are cleaner.

Accidental exposure is reduced: Because the sanitary toilet seats prevent users from having to touch anything, this greatly reduces the risk of exposure.

Maintenance costs reduced: By using these seats, these seats don't leave messes behind. By staying cleaner longer, maintenance costs will be lower.

Customer services improved: Patrons and customers will appreciate the fact that restroom facilities are cleaner and more sanitary. They will be pleased with the restroom experience, and may even tell others.

The Brill Hands-Free [Electronic Toilet Seats](#) are designed to automatically change toilet seat covers. When either a hand is waved in front of a wall-mounted, hands-free sensor or a green button is pressed, it will produce a fresh, clean sanitary toilet seat cover set in place for each and every user.

In the case of public restrooms, Brill toilet seat covers will help prevent the spread of germs on patrons' hands and body. This exciting new innovation can help prevent the spreading of illness, and protect public health.
