

5/01/21 REV 6

EFFECTIVE May 01, 2021 TAYLOR VALVE WILL BE UPDATING ITS PROTOCOL FOR ALL VISITORS

Due to the decrease in **COVID 19** outbreaks in Oklahoma and around the world, Taylor Valve Technology, Inc (TVT) is updating its Guidelines for **ALL** visitors (**masks will still be mandatory during your visit to our campus**)

WHEN ENTERING THE BUILDING:

All visitors are **required to have a CDC approved face mask and do a temperature check.** (NOTE: if your temperature is above 100.4F or 38C you will not be allowed to enter the facilities. If your stay encompasses a more than one day visit to the OKC area, you may attempt a second visit THE NEXT DAY if feeling better and your temperature is below 100.4F or 38C. (You will be required to do another temperature check).

WHILE ON THE PREMISES AT TVT THE CDC GUIDELINES ARE RECOMMENDED:

- 1) All visitors are required to maintain 6 feet separation and practice social distancing during their visit at the facilities.
- 2) Be sure to practice safe hygiene and interaction procedures.
- 3) If a visitor needs a mask TVT can supply one.
- 4) Any visitor must have had at least 10 days past if having tested positive for COVID-19.

Stay Safe,

Chief Operating Officer - 5/1/21
