Participating Members of MIDWEST HEALTH CONNECTION

HIE Trading Partners & Map of Nationwide Connectivity

MHC is designated as one of only four gateways in the national Patient Centered Data Home (PCDH) initiative made up of almost 40 health information exchanges (HIEs) across the United States. PCDH enables clinical data to be available whenever and wherever a patient receives care to ensure clinicians have real-time access to health data for clinical decision making which leads to better health outcomes and cost efficiencies.
