- Business Process Automation
- Standards and Best Practices

Value-Add Software Solutions

- LinkAccess - automation and integration platform
- LinkLoader - automates Windchill data loading
- LinkTuner - proactive Creo-Winchill benchmarking

Maximize the Return on your PTC Investment

Your PTC Windchill and Creo Consulting Experts

Fishbowl Solutions provides a full suite of professional services centered on the engineering and manufacturing industry, with a special focus on the PTC solution portfolio. Our comprehensive knowledge, breadth of experience, and close attention to detail enables us to provide a level of personal attention to our customers on any size or type of project.

Implementation and Upgrades

The Fishbowl team has performed Windchill implementations that range from simple to complex. Projects have included Change Management, ERP integrations, MPMLink implementations, PartsLink migrations, Search integrations and much more. If you are thinking about upgrading to the newest release, implementing a new module, or deploying any business process automation, consider partnering with an organization that understands the effort and expertise necessary for a successful outcome.

Data Migration Expertise

Fishbowl has extensive migration and bulk loading experience with many great references. We have developed a proven process and proprietary applications to migrate data from network folders as well as other PDM/PLM systems into Windchill. Fishbowl also leverages the PTC Windchill Bulk Migrator for complex migration projects when appropriate. We are always looking to optimize the migration process and minimize engineering downtime.

Integrations and Customizations

The PTC Windchill API and the Workflow Engine are powerful components that allow Windchill to be configured to support a wide range of business processes. The Fishbowl team consists of software development experts who understand the internal workings of Windchill like no one else in North America, which means we know how to efficiently create workflows, integrations, and automation applications. From simple projects that eliminate non-value added tasks, all the way to fully integrated business automation spanning design through manufacturing and partner collaboration, Fishbowl delivers results time and time again.

ThingWorx & ThingWorx Navigate

Give your knowledge workers simple, secure access to the critical information they need when they need it. PTC has the platform and Fishbowl Solutions has the experience. Fishbowl has a dedicated team of consultants and software developers ready to help you unleash the power of your product information.
