Examples of Strategies for Change

Below is a sample set of strategies for change and related tactics that can be used once students have established a measurable goal. As you look at this list keep in mind the change you want to make and how a combination of strategies and tactics will get you to your desired outcome. You may use some of these or think of others.

The goal of your Earth Force project is to create a sustainable change that has measurable results, yet there is no guarantee that your plan will result in the desired change. There can always be unforeseen challenges or complications. However, the more tactics combined in the action plan, the better the chances are for achieving the desired result.

Many of the tactics below can be used to address more than one type of strategy. As you identify the strategy for change, and the tactics to create the change, be sure to identify how you will measure the impact of your actions.
