

# COVID -19 Control Plan *Addendum*

---

In accordance with federal and state guidance and regulations  
provided by the Centers for Disease Control and Prevention  
and the Commonwealth of Massachusetts

---

## **Press Release 5/17/2021 from Baker-Polito Administration**

### **Effective May 29**

Effective May 29, all industries will be permitted to open. With the exception of remaining face-covering requirements for public and private transportation systems and facilities housing vulnerable populations, all industry restrictions will be lifted, and capacity will increase to 100% for all industries. The gathering limit will be rescinded.

All industries will be encouraged to follow CDC guidance for cleaning and hygiene protocols.

On May 18, 2020, the Administration published the reopening phases, which called for ending restrictions when vaccines became widely available. Today, there are over 975 locations for Massachusetts residents to access vaccines without delay.

### **Face Covering Guidance**

In line with updated CDC face covering guidance, the Administration will rescind the current face covering order and issue a new face covering advisory effective May 29.

Non-vaccinated individuals are advised to continue wearing face masks and to continue distancing in most settings. The advisory will also recommend fully vaccinated individuals no longer need to wear a face covering or social distance indoors or outdoors except for in certain situations.

Face coverings will still be required for all individuals on public and private transportation (including rideshares, livery, taxi, ferries, MBTA, Commuter Rail and transportation stations), healthcare facilities and providers, congregate care settings and health and rehabilitative day services.

Face coverings will also remain required indoors for staff and students of K-12 schools and early education providers.

### **State of Emergency Order**

Governor Baker will end the State of Emergency June 15, and the Administration will work with legislative and municipal partners during this period in order to manage an orderly transition from emergency measures adopted by executive order and special legislation during the period of the State of Emergency.

***American Moving & Installation, Inc. is committed to respecting and abiding by the guidelines in place for individual organizations or set forth by building management.***

## Massachusetts' COVID-19 vaccination distribution

People age 12 and older who live, work, or study in Massachusetts can get vaccinated against COVID-19. People ages 12-17 can only get the Pfizer vaccine. People age 18 and older can get any vaccine. The vaccine is safe and effective. You don't need an ID or insurance to get it.

Steps to get your vaccination

Step 1: Preregister for a mass vaccination or regional collaborative location, or find a location and schedule your appointment

Note: An attestation form is no longer required.

There are different ways to find a vaccine appointment:

- Use [VaxFinder.mass.gov](https://VaxFinder.mass.gov) to search for appointments
- Preregister at [VaccineSignUp.mass.gov](https://VaccineSignUp.mass.gov) to be notified when it's your turn to schedule an appointment at a mass vaccination or regional collaborative location

Massachusetts' preregistration system makes it easier to request and schedule an appointment. People can preregister for a COVID-19 vaccine appointment at mass vaccination locations and certain regional collaborative locations only. More locations will continue to be added.

Once you sign up for preregistration, you'll receive weekly status updates. You can opt out at any time if you find an appointment elsewhere. Once an appointment is available, you'll be contacted with the opportunity to book the appointment and have 24 hours to accept it.
