

The ACC closet system can be used in any room in the home or office. The configurations are limited only by your professional knowledge and imagination. Closets, pantries, store rooms and garage storage systems are only a few of the possible applications for this product when finished ends and no back are required.

All pricing is based upon 3/4" white, two sided, fused melamine with 1mm thick, white PVC edge banding on three sides of panels and four sides of doors and drawer fronts. Doors and drawer fronts can be upgraded to 3mm PVC edge banding which is available in a variety of colors to customize your installation.

INSTALLATION INSTRUCTIONS

1. MEASURE AND CUT WALL RAIL TO LENGTH OF INSTALLATION AS NECESSARY.
2. FASTEN WALL RAIL TO EACH WALL STUD AT THE PROPER HEIGHT ABOVE FLOOR FOR YOUR SPECIFIC PANEL LENGTH WITH A 2 1/2 - 3" GRABBER SCREW. MAKE SURE THAT THE RAIL IS LEVEL.
