

Testimonials

Five stars from Rick B.

This is the contractor you need to hire for all of your custom renovations in Corpus Christi! We have finally found a contractor in South Texas who is committed to excellence in work and customer service. James remodeled our bathroom and transformed the space beyond our expectations

Five stars from Shane D.

James and his crew did an excellent job in a timely manner. His crews were very friendly professional, and hard working. James is very down to earth and informative. He and his crews have helped me fully transform my downstairs and I highly recommend PureTree Construction.

Five stars from Guillermo N.

I was on a time crunch. James had a very fair priced estimate done in 24 hrs. It took less than 10 days to redo a full kitchen: cabinets, granite, sink, appliances. Everything was well done with attention to detail and great clean up. Highly recommended!!

Five stars from Rick F.

All the guys at PureTree made me feel like I was the most important customer. All were friendly, hard working, and went out of their way to please. They were there everyday until the job was done, The high quality finished product has definitely improved our quality of life and the value of our home. I plan to use them again on my next project.
