Alliance for Public Waldorf Core Principle

6. Collaborative Leadership

School leadership is conducted through shared responsibilities within established legal structures

- Faculty, staff, administration and boards of a Public Waldorf school collaborate to guide and lead the school with input from stakeholder groups. To the greatest extent

possible, decisions related to the educational program are the responsibility of those faculty and staff with knowledge and experience of Rudolf Steiner's educational insights.

- Governance and internal administration are implemented in a manner that cultivates active collaboration, supportive relationships, effective leadership, consequential action, and accountability. A Public Waldorf school is committed to studying and deepening its understanding of best practices of governance appropriate to its stage of organizational development.
