Alliance for Public Waldorf Core Principle

4. Human Relationships

Public Waldorf Schools foster a culture of healthy relationships.

- Enduring relationships — and the time needed to develop them — are central to Public Waldorf education. The teacher works with each student and class as a whole to support relationship-based learning.
- Healthy working relationships with parents, colleagues, and all stakeholders are essential to the well being of the student, class, and school community. Everyone benefits from a community life that includes festivals, events, adult education, study, and volunteer activities.
- Public Waldorf education encourages collaboration in schools, within the Alliance for Public Waldorf Education, among all schools working out of a developmental approach, in conjunction with the broader field of education.
