

In partnership with Atlanta Metropolitan State College, students can pursue a professional career path with **Year Up!**

You could be interning and working at top companies like **Google, GE Digital, and Bank of America.**

Year Up collaborates with Atlanta Metropolitan State College to offer an IT and Business program that provides 18 - 26 year olds with hands-on skill development, corporate internships in Fortune 500 companies, an educational stipend, and college credits.

We are currently accepting applications for our upcoming August cohort. Sign up for an information session through the link below to start your application. In addition, we would love to speak with your students in details about the Year Up program!
