

# Achieve Your Best Life Through a Career In Tech

The Tech Transformation Academy is designed to quickly give you the skills needed to earn a rewarding career in technology. This program is taught by DigitalCrafts and Carolina Cyber and is free of charge for qualified applicants that are willing to put in some hard work!

- ✓ Job Stability
- ✓ Increase Your Income
- ✓ Learn in Months, Not Years

## Are you Frustrated with Your Current Job?

- Unstable Income
- Insecure Future
- Lack of Purpose in Your Work
- Limited Flexibility

## About The Training

**Tech Transformation Academy is geared toward creating stackable credentials and career pathways in Web Development and Cybersecurity.**

All curriculum is created in collaboration with employers and industry partners, ensuring students receive the most relevant training to meet ongoing employer needs. Students will receive weekly job readiness training that will consist of resume building, soft skills, and personal development.

## A Once In a Lifetime Opportunity

This partnership between Carolina Security, DigitalCrafts, and City of Refuge provides you with a once in a lifetime opportunity to start a career of your dreams. No experience in technology needed in order to begin and we will help you find a job following your training.

# Job Training Options

## Web Developer

Web Developer graduates will receive a certificate of completion in Full Stack Web Development giving them the foundation of skills to become a Web Developer and/or Software Engineer. Classes are offered in full and part-time formats lasting 4 to 6 months, with access to a full array of social services. Upon course completion, graduates will be recognized as a “full stack web developer”. The Web Development/Software Engineer training course includes learning to code in: HTML, CSS, JavaScript, HTTP, JSON, and cPython.

**Training Delivered by DigitalCrafts**

## Cybersecurity

Cybersecurity students will have a choice to train and test for the following industry-recognized certifications: CompTIA ITF+, CompTIA Net+, CompTIA Security+, and SOC Analyst.

This program length is 6 to 12 months and may be extended for additional industry-recognized credentials.

**Training Delivered by Carolina Cyber**

# Apply Today!

City of Refuge provides scholarships to individuals in Web/Software Development and Cybersecurity. Students will have access to a full array of services and supports throughout the training program, including childcare and meals.

Upon graduation, students will receive a certificate of completion equipping them to seek work with companies hiring web developers or cybersecurity specialists.
