

## STAINLESS STEEL PLATED OIL COOLERS

We offer a wide range of oil coolers that help improve overall system performance. They meet virtually every system requirement for maintaining safe fluid operating temperatures to protect engine components.

- High-grade 304L Stainless Steel plates ideal for even high-pressure applications.
- Highly efficient, thin-walled plates with internal turbulators for maximum heat transfer.
- Meets and exceeds OEM specifications.
- Variable stack heights available to meet various applications.
- Variable inlet/outlet fittings available to meet connection requirements.
