

Bartlesville Sportsmen -

In response to the global COVID-19 pandemic, the board has made the tough decision to close the club until the end of April. The situation will be re-evaluated at the end of the month, and we'll communicate with you if closure needs to be extended. This is consistent with what other clubs in the Tulsa area are doing, and it seems prudent to err on the side of caution - there are at least 3 club members that are known to have contracted the virus.

The closure effects all shooting disciplines - Pistol, Rifle, Shotgun, & Archery.

7 term BSC President Mike Proctor passed away in March after a long battle with cancer - Keep his family in your thoughts and prayers. You can view his obituary here: [Mike Proctor Obituary](#)

Clubhouse:

Construction on the new clubhouse is complete, and it has turned out really nice. In conjunction with the new club house, new electrical switching will be installed. This will alleviate the problem of power to the rifle / pistol range been turned off inadvertently. After the weather dries out, new gravel and grading will take place on the roads.

The Spring Cleanup up scheduled for April 11 will be postponed until after the club reopens.

Component programs:

As with the club closure, all Grafts orders are on hold until the club gas reopened.

Rifle / pistol shooters can purchase components from avid shooter Jim Reynolds. Many of you already know Jim as he shoots several days a week.

Crow Shooting Supply appears to still be taking orders - this might be a good option as they ship components direct to customer, not to club. If you're ordering a firearm they should now have several FFL dealers listed you can ship to. You'll want to make sure you check with the FFL dealer to find out what they charge for xfer fee, as they vary on charges. Here's the Crow login info:
