Tarrant County Democratic Party (TCDP)

is the official arm of the Texas Democratic Party in Tarrant County, the state's third most populous county—and one that is beginning to see shifts in voting.

From GOTV (get out the vote) efforts to supporting local candidates our team and volunteers work every day advocating for the platform of the Democratic party and fighting for a better Texas and a better United States of America.

We believe in:

- Equality and Freedom
- Smart Government
- A Healthy Texas

You can read the platform of the Texas Democratic Party in full [here](#).

Who We Serve

VOTERS

To the voters of Tarrant County, we want to be a resource for anything election-related, particularly for voter education. We do this by organizing the county by voter precincts and giving a voice at the very first level of democracy: the people. Please reach out to your precinct chair to begin your engagement in democracy directly with your county party!

CANDIDATES

To those who are answering the calling of doing more than voting, more than organizing, but who want to step up and serve in an elected capacity, we are here to help guide, connect, and teach you.

Our Mission

Our mission is to get Democratic candidates elected to public office at every level of government. To accomplish this goal, we are bringing together like-minded individuals to organize, energize and educate voters in our communities.
