

**SEWERS**

Only Matlacha has a public system. Private systems are in use in the island condominiums and manufactured home communities. The rest of Pine Island uses septic tanks.

**THE PINE ISLAND ORDINANCE**

One reason that Pine Island has not become a paved-over resort island is because of this ordinance. Unlike other places along the Gulf Coast, building densities are a fraction of those on the other islands, with a maximum exemption off of the assessed value of your Florida home. It is available only to bona fide residents. For your first time application, you must appear in person at the property appraiser's office, Lee County Courthouse. Among the things that you will need to apply are your deed or tax bill, a Florida driver's license and voter's registration card. For all of the details, call the property appraiser's office at 339-6100. Website [www.leepa.org](http://www.leepa.org).

**THE FLORIDA HOMESTEAD EXEMPTION**

Florida homeowners can save hundreds of dollars on their property taxes under the Florida Homestead Exemption. Put simply, it allows a \$50,000 exemption off of the assessed value of your Florida home. It is available only to bona fide residents. For your first time application, you must appear in person at the property appraiser's office, Lee County Courthouse. Among the things that you will need to apply are your deed or tax bill, a Florida driver's license and voter's registration card. For all of the details, call the property appraiser's office at 339-6100. Website [www.leepa.org](http://www.leepa.org).
