## PRODUCT INFORMATION

### MAGNA 106 ALKALINE DEGREASER

**Function:**

Remove Grease, Oil & Grime

**Application:**

Cleaner Degreaser

**Form:**

Green Liquid

### DESCRIPTION

**Magna 106** is a powerful liquid degreaser that is formulated with water-soluble solvents, emulsifiers and wetting agents.

**Magna 106** keeps degreasing efficiency high while at the same time avoiding most of the risks common in powerful cleaners.

**Magna 106** degreaser combines maximum degreasing effectiveness with minimum hazard with added anti-corrosion properties.

### FEATURES

**Magna 106** is non-explosive and, unlike petroleum, can be heated without danger

**Magna 106** does not emit fumes like chlorinated solvents, is not highly volatile and evaporates very slowly giving off mild vapours

If **Magna 106** is placed at room temperature, evaporation will be minimized

### APPLICATIONS

**Tools, Parts, Machinery:** depending on condition, it should be allowed to soak into unwanted grease for 2 or more hours before rinsing with water.

**Fuel Oil Spills:** spray or brush on concentrated **Magna 106** and allow to soak for 5-30 min. Rinse with water.

**Wall Surfaces:** dilute 1 cup in a bucket of warm water. It will leave a clean wall without affecting the enamel paint.

**Fuel Oil Burners:** soak the fuel oil burner in concentrated **Magna 106** for about ½ hour. Remove and rinse thoroughly with water.

**Concrete Floors:** spray area and agitate with brush or leave soak for 15-30 minutes then rinse off.

**Restaurants:** cleans the interior and exterior of exhaust fans, hoods, cooking equipment, deep fryers, floors and other areas. Spray on and leave for a few minutes. Wipe off and rinse.

**Excellent for Exterior and Interior of Vehicles, Transports, RV's and Boats:**

**Exterior:** removes asphalt, tree sap, grease, oil, bugs and diesel soot from exhaust stacks. Spray on and wipe off.

**Interior:** removes stains on walls, floors, ceramics, appliances, vinyl, leathers, plastics, blinds, enamels, brass and so much more.

## DIRECTIONS FOR USE

- According to the grease accumulation, **Magna 106** can be used either in its concentrated form or diluted with 5 to 10 parts of water.
- Hot water is recommended as the diluting agent to achieve faster results in degreasing
- Cold water is also a perfectly workable diluting agent
- Use in concentrated form for floors and stoves then wipe immediately

## PACKAGING

- 4L Jug
- 20L Pail
- 200L Drum

Manufacturing Facility  
1450 Government Rd., West  
Kirkland Lake, ON  
P2N 2E9 Canada
