

PRODUCT INFORMATION

VAPPRO 810G Non-Rinse Gel Rust Remover

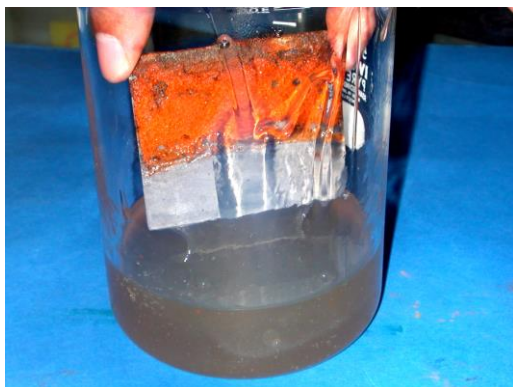

Function: Scale and Rust Remover	Application: Surface Preparation	Form: Viscous Gel
--------------------------------------------	--------------------------------------------	-----------------------------

DESCRIPTION

VAPPRO 810G is a viscous gel rust remover that effectively removes rust, stains and tarnish from iron, steel, brass, copper, aluminum and chrome.

Unlike conventional rust removers, **Vapro 810G** prevents flash rusting after rust removal. Its corrosion inhibiting properties protect metals after rust is removed.

It is non-flammable and has a mild odour. It is designed for use in well-ventilated areas and outdoor applications.

Dip Application

Treated with **VAPPRO 810G**

FEATURES

- No rinsing necessary
- Eliminates the problem of waste disposal
- Effectively removes rust, stains and tarnish from both ferrous and non-ferrous metals
- No adverse effects on most paints, plastics, wood, ceramics and rubbers
- Prevents flash rusting on metal after rust removal
- Clings to vertical surfaces, overhead or the underside of horizontal surfaces
- Non-dripping
- Safe to handle, use and store
- Non-flammable
- Non-polluting to the environment
- Suitable for indoor, outdoor and marine applications

APPLICATIONS

- Trucks, cars and other vehicles
- Superstructures for marine and offshore
- In-process rust removal for metal parts
- Automotive, marine and offshore equipment

DIRECTIONS FOR USE

- Apply **VAPPRO 810G** with a brush directly on rusted surfaces and leave for 10-20 minutes before wiping off with a cloth.

PHYSICAL PROPERTIES

Appearance	White viscous gel
Flash point	Non-flammable
Viscosity	Viscous gel
Odour	Mild
pH	1 ± 0.5

PACKAGING

- 20L Pail
- 200L Drum

Manufacturing Facility
1450 Government Rd., West
Kirkland Lake, ON
P2N 2E9 Canada
