

PRODUCT INFORMATION

VAPPRO VCI GUN BAG CONFORMS TO MIL-PRF-22019D

Function: Vapour Corrosion Inhibitor (VCI)	Application: Protective Packaging	Form: Gun Bag
--	---	-------------------------

DESCRIPTION

VAPPRO VCI GUN BAG is a significant breakthrough in corrosion protective packaging technology. It offers a new concept in product protection without the need for rust preventative coatings.

VAPPRO VCI GUN BAG offers protection for aluminum alloys and copper while providing excellent protection for ferrous metals, steel, and stainless steel.

VAPPRO VCI GUN BAG does not change critical electrical or mechanical properties of electronic or electrical components.

VAPPRO VCI GUN BAG conforms to military specification **MIL-PRF-22019D**

VCI GUN BAG FEATURES

- Does not need to be in contact with metal; the vapours travel to all portions of the enclosure
- Eliminates messy and greasy handling procedures
- Clear and transparent bag allows visible inspection of rifle
- Has no coating so it will not flake, stick, damage or soil products
- The VCI inhibitors will not affect mechanical properties of the firearm
- It may be used with VAPPRO 815, VAPPRO 818 and VAPPRO 819 Gun Care Products
- No special handling required
- Long shelf life
- Custom sizes are available to meet specific packaging needs
- Provides corrosion protection for both ferrous and non-ferrous metals

APPLICATIONS

Corrosion protection for all firearms

DIRECTIONS FOR USE

1. Insert cleaned firearm into VAPPRO Gun Bag
2. Securely press the Velcro together to prevent entry of moisture or air

PHYSICAL PROPERTIES

Thickness	6 mils (150microns)
Form	Rifle Bag
Appearance	Blue Transparent Film

Manufacturing Facility
 1450 Government Rd., West
 Kirkland Lake, ON
 P2N 2E9 Canada
