

Your Corrosion Solution

# PRODUCT INFORMATION

## VAPPRO 119

**Function:**  
Vapour Corrosion Inhibitor (VCI)

**Application:**  
Adhesive Remover

**Form:**  
Liquid

### DESCRIPTION

VAPPRO 119 is a colourless viscous liquid specially developed to remove paints, adhesives and labels from ULD trolleys and aircrafts without causing metal loss to metal substrates such as aluminum, titanium and its alloys. It does not contain harmful solvents like toluene, xylene, or acetone and it is non-flammable.

VAPPRO 119 strips paints and protects metal substrates from corrosion. Unlike conventional liquid paint strippers that evaporate quickly, VAPPRO 119 remains on the surface to soften, penetrate and remove the coating.

VAPPRO 119 has a unique combination of vapour and contact inhibiting properties to prevent corrosion, flash rusting and discoloration of aluminum, iron, copper, brass, and steel titanium after paint, adhesive or label removal.

VAPPRO 119 effectively strips acrylics, alkyds, vinyls, styrenes, epoxies, enamels, and polyesters.

### FEATURES

- Non-flammable
- Does not contain harmful solvents like toluene, xylene, and acetone
- Fortified with Vapro proprietary vapour corrosion inhibitors
- Viscous liquid suitable of overhead applications
- Does not affect aluminum, titanium and its alloys
- Strips and protects metal substrates at the same time

### APPLICATIONS

- Removes labels and adhesive from ULD trolleys
- Removes paint from the body of the aircrafts, tanks, spray booth equipment, and floors

### PACKAGING

- 20L Pail
- 200L Drum

**Manufacturing Facility**  
1450 Government Rd., West  
Kirkland Lake, ON  
P2N 2E9 Canada
