

Mobile Thin Client

The Client

One of the niche players in the healthcare sector of charge capture systems wanted a thin client mobile application. Which could run across multiple platforms (iOS, Android) and multiple form factors (tablets and phone). The application had to be compliant with HIPAA guidelines.

Business Challenges

- Thin client architecture to facilitate data exchange
- Apply existing security policies to mobile platforms
- Need for easy user interface for non tech users
- 80+ screens in 6 months duration
- HIPAA compliance
- Consume existing and new JSON based web services

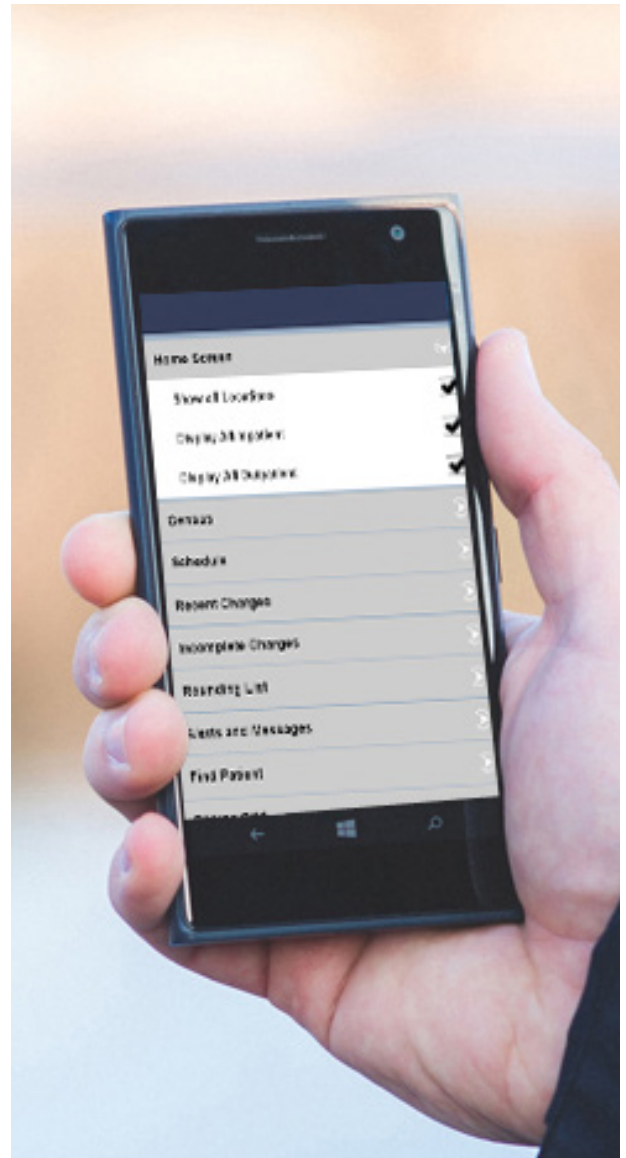

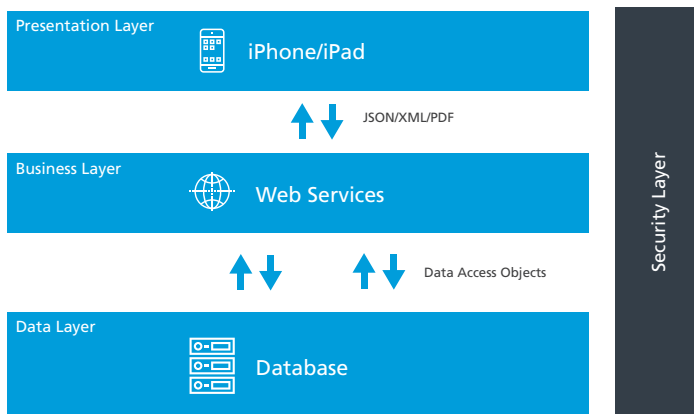

Technosoft's Solution

- Hybrid mobile app with profiling to support a multitude of devices and form factors
- Robust Sencha touch framework for speed and agility
- Agile scrum methodology and delivery lifecycle
- Revived user interface with adherence to style guidelines
- Compliant with HIPAA data safety guidelines

Technology

Sencha Touch 2.3, HTML5, PhoneGap/Cordova

About Technosoft

Technosoft Corp. (Technosoft) combines strategy, technology and creativity to help companies accelerate their digital transformation journeys.
