

## 14<sup>TH</sup> ANNUAL POSTER CONTEST

### Let Your Students Get Creative and Your School Could Win \$1,000 (Teacher and students could win prizes, too.)

Dear Principal,

October is **Energy Awareness Month**, and the perfect time to partner with New Jersey Natural Gas (NJNG) to encourage your students to think about the importance of energy conservation.

NJNG's annual **Conserve to Preserve® (CTP) Kids and Conservation Poster Contest** provides fifth-grade students the opportunity to illustrate important energy-saving lessons, giving their schools, teachers and them a chance to win cool prizes. Each of three student winners will receive a tablet and their respective schools (or home school associations) will get a \$1,000 contribution towards an energy conservation or environmental project. Plus, their teachers will receive a \$100 gift card, and all participating students will get a certificate of recognition.

As schools face unforeseen challenges this year, in lieu of the Brain Show Assembly program, each winning student's class will receive \$500 to treat themselves to something special. Winning posters will be featured on [njng.com/education](http://njng.com/education).

The contest is open to all fifth-grade students, including those who are home schooled, within NJNG's service area. **This year, all entries will be submitted via email. Please refer to the attached for more information, including contest details, student flier and tip card.** Or visit [njng.com/education](http://njng.com/education) for details, terms and conditions.

It's easy to participate. Contact **Carolyn Cannon at 732-938-1035 or [ccannon@njng.com](mailto:ccannon@njng.com)** to receive your starter kit via email. Poster entries must be submitted to NJNG by **November 30, 2020**.

Thank you for joining us in teaching students about energy conservation so they can make a difference in their communities now and for generations to come.

Sincerely,

*Carolyn E. Cannon*
