

Chapter 1: A computer

16-4-2021

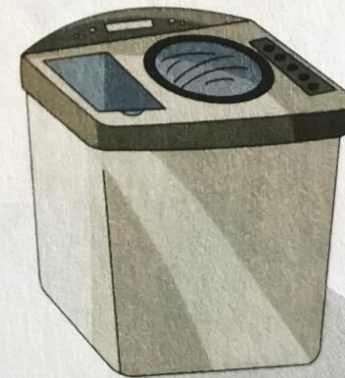

Examples of machines

Mark a tick (✓) in the box next to the machines that are usually found inside the house.

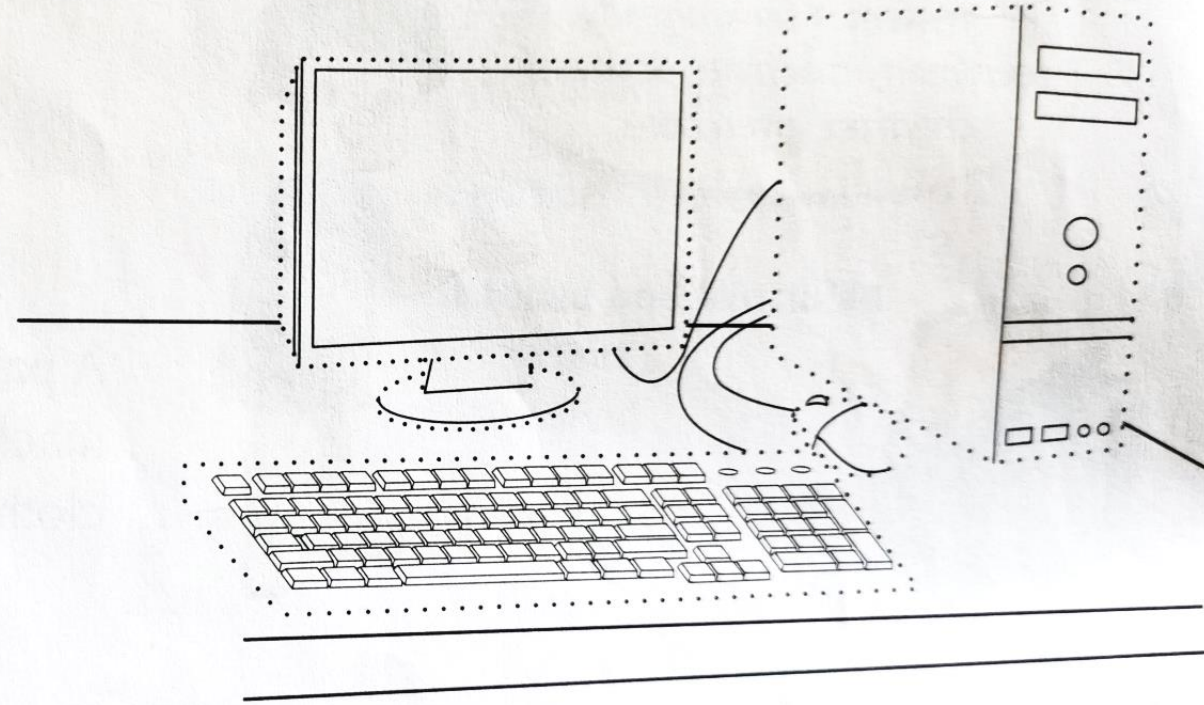

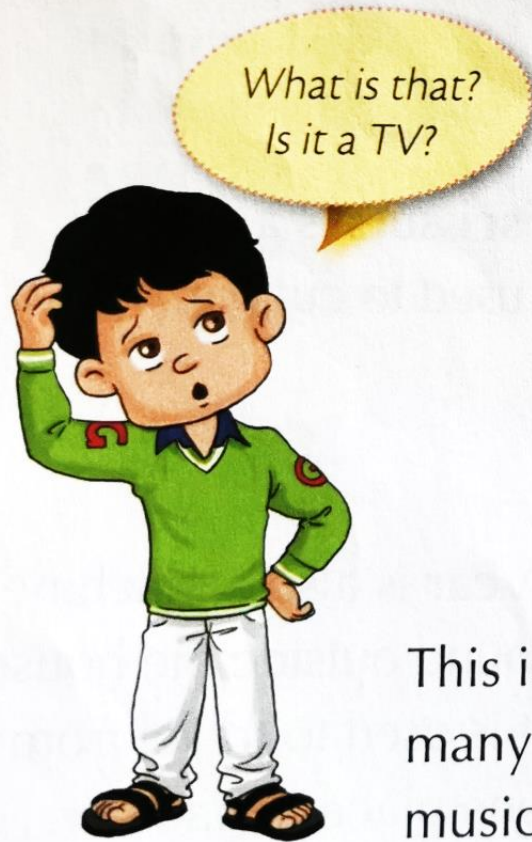

Mark a tick (✓) in the box next to the machines that are usually found inside the house.

THE COMPUTER—A SMART MACHINE

Join the dots and complete the picture. Then colour it.

This is a machine called a **computer**. A computer helps us do many things. It helps us solve sums, draw pictures, listen to music, play games, etc.

Computer home work
